Navodila o varčni porabi goriva in emisijah CO₂, ki vsebujejo podatke za vse nove modele osebnih avtomobilov, so brezplačno na voljo na vsakem prodajnem mestu.

Na določanje porabe goriva in emisij CO₂ posameznega vozila poleg njegove učinkovitosti porabe vplivajo tudi način vožnje in drugi netehnični dejavniki. CO₂ je najpomembnejši toplogredni plin, ki povzroča globalno segrevanje.
